OBITUARY

On Thursday morning, March 29th, 1928, the death angel visited the home of Mrs. Louis Belle Davis and took from her a loving husband.

He suffered with pleurisy. He had only been sick two days and nights. God saw fit to take him to his heavenly home to rest. He talked to his wife. He told his wife Thursday morning he was ready to go.

He was born in Coffee county and lived there all his life. On August 21, 1916 he married Miss Louise Belle Matthews. She served his to the end.

To this union was born 5 children, 3 boys and 2 girls. Three children are now living, namely, Jessie Franklin, Buhla Bernice, and Myrtle Venable.

He was 38 years one month old at the time of his death.

Mr. Davis was buried at Bethlehem Elba, J. A. J. Mitchell conducted the funeral services.

How often we have seen his smiling face come in class and singing God's praises, but now he has gone to Christ where all is peace and all are loved.

His loving face we see no more but we hope to meet him on the Throne when our time comes.

# Protect Your Investment in Your Model T Ford

THE Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of expense.

Because of this policy and because of the investment that millions of motorists have in Model T cars, the Ford Motor Company will continue to make parts until, as Henry Ford himself says, "the last Model T is off the road."

More than eight million Model T Fords are still in active service, and many of them can be driven for two, three and five years and even longer.

So that you may get the greatest use over the longest period of time at the lowest cost, we suggest that you take your Model T Ford to the nearest Ford dealer and have him give you an estimate on the cost of any replacement parts that may be necessary.

You will find this the economical thing to do because a small expenditure may enable you to maintain or increase the value of the car and give you thousands of miles of additional service.

No matter where you live you can get these Ford parts at the same low prices as formerly and know they are made in the same way and of the same materials as those from which your car was originally assembled.

Labor cost is reasonable and a standard rate is charged for each operation so that you may know in advance exactly how much the complete job will cost.

Dreaded Aches, PAINS Disappeared

"My health had been poor for ten years, before I took Cardui," says Mrs. Anna Smith, of Rockport, Ind. "I was listless and no account. I drugg, it around day after day, every move an effort, and never feeling the joy of being well."

"At times, I had a dreadful ache across my back, and my sides hurt me. I worried along, sometimes hardly able to leave my bed, but the demands of a growing family had to be attended to so I would get up, do what was absolutely necessary, and then lie down again."

"One day, someone suggested Cardui to me. I took it for several nights, and all the time I was growing stronger, and less nervous. My aches and pains finally disappeared."

"That was two years ago. My improvement has been permanent. The good health which followed the taking of Cardui, is still with me, so I do not hesitate to recommend it to my friends."

# GENERAL MOTORS

CLIP THE COUPON

It will pay you to see what General Motors offers before you select your next car. Compare General Motors quality and value in each price class. Learn about the tests General Motors applies to all cars produced here and abroad, at its great Proving Ground. Consider the importance of a time payment plan which gives you low rates, because of the volume of business handled. Remember that you are assured of service, because General Motors dealers are everywhere.

By using the coupon below, you can bring into your home immediately full, illustrated information about any or all of the products made by General Motors. With this will come a new book called "Principles & Policies." You will find it unusual reading, for it takes you behind the scenes and shows just what General Motors is and what it is doing to continue to merit public goodwill.

**MRS. W. D. PEARSON HOSTESS AT LOVELY GARDEN PARTY.**

Mrs. W. D. Pearson entertained Wednesday afternoon at a lovely garden party honoring the members of her Sunday School class who are also members of the Elba High graduating class. The following popular young ladies belong to this group: Misses Irene Devane, Eleanor Connor, Eva Hammond, Hazel Bonneau, Ferrel Harper, Eugene Grissett, Eddie Boutwell and Mercer Brunson.

The garden was a scene of rare beauty, with tall hickories, holding various colored flowers and tied with pink tulle.

Mrs. Sam Rowe, Jr., greeted the guests at the door and ushered them to the receiving line composed of Mrs. W. D. Pearson, Mrs. B. S. Franklin and the honorees.

Mrs. Pearson was becomingly given of in a green georgette trimmed with red lace. Mrs. Franklin wore a rose beige georgette. Miss Irene Devane, first honor student of the class, wore a pink tulle. Miss Eleanor Connor, second honor student, wore a green tulle. Miss Eva Hammond, president of the Sunday School class, wore a green tulle with a shoulder bouquet of hand-made roses. Miss Hazel Bonneau, secretary of the class, wore a blue and white striped dress.

Mrs. Grissett was lovely in an orchid imported organza over pink satin. Miss Eddie Boutwell was becomingly dressed in an American beauty tulle with rose trimmings. Miss Mercer Brunson wore a yellow organza over tulle of the same shade. Misses Gladys Jackson and Ruby Folson presided at the register table. Miss Gollie Rowe ushered the guests from the registry to the punch table. Delightful punch, sandwiches and other refreshments were served by Misses Hazel Blair, Hilts Shervess and Irene Grissett. In a cozy spot on the garden there was a tent where Mrs. J. W. Kenrick, dressed in full, gave out refreshments to the guests. A splendid reading was given by Mrs. Dana Perdue.

This was one of the most beautiful of a series of social affairs that have been given for members of the graduating class. Seventy-five guests called during the hours from 4:30 to 6.

**WINTER LEGUMES MADE FAIR SHOWING.**

AUBURN, Ala.—Special.—As a whole, the Alabama winter legume crop came through the winter in fair condition despite a hard winter. However, the results were disappointing to county agents and officials of the experiment station at Auburn in that monantha vetch was hit hard and is not nearly so promising as it was a year ago.

For several years the experiment station of the Alabama Polytechnic Institute has been seeking a winter legume that is resistant to cold, early and would produce seed in this section. It appeared that monantha vetch would fill the bill but the recent winter has blighted these hopes. Approximately 75 per cent of the monantha vetch planted in Alabama last fall failed to survive winter. A temperature of 10 to 12 degrees above zero was very destructive whereas during the winter of 1926-27 it was not hurt by temperatures of 4 to 6 degrees above zero. The why of this is not known.

Heavy vetch and Austrian winter peas came through in good condition. Heavy vetch remains the leading winter legume in Alabama but Austrian peas are gaining in favor. This pea is earlier than heavy vetch; it makes a big growth; and seed production appears more probable, although Prof. H. J. Fausch, director of the Auburn station, says that further investigation of this subject is needed.

Indications now are that Alabama farmers will go strong on Austrian peas and hairy vetch next fall. The seed supply will be limiting factor in planting. The Experiment Station at

staidly. In 1900 when this society was incorporated the Jewish farm population of the United States was 1000. At the end of 1927 approximately 80,000 Jews were tilling the land. It is estimated that they own 1,000,000 acres and that their property is worth \$10,000,000.

The Jewish Agricultural Society says the drift of Jews to farm lands in the United States is increasing.

**NITROGEN + LIME**

**Gives better results than Nitrogen alone!**

Lime is a necessary phosphorus, and a splendid soil conditioner. A cotton crop of 500 lbs. lint cotton to the acre, requires and takes up 66 lbs. of lime and 67 lbs. of nitrogen per acre. Corn, peanuts, tobacco and other crops require lime as well as nitrogen.

**CALCIUM NITRATE**  
(Nitrate of Lime)  
15% Nitrogen  
28% Lime (56% Limestone equivalent)

Supplies both lime and nitrogen, in the most soluble and available form, and at the cost of the nitrogen alone! Side-dress your cotton and corn at the rate of 100-200 pounds per acre.
